### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin McDermott on February 15, 2007. The application has been amended as follows:

Please amend claim 1 to:

1. A method for configuring a programmable logic controller (PLC) having a protocol, said method implemented by a computer and comprising the step of: providing by the computer, an extensible markup language (XML) schema for the protocol of the PLC, wherein said providing an extensible markup language schema comprises formatting an Ethernet Global Data language of the PLC by applying an extensible markup language format, wherein said formatting the Ethernet Global Data language of the PLC comprises providing, within the XML schema, a reference to an address of a location of a variable within the PLC, saving the formatted Ethernet Global Data to memory.

Please cancel claim 19.

Please cancel claim 20.

*Allowable Subject Matter*

The following is an examiner's statement of reasons for allowance: Applicant has defined the term Ethernet Global Data in the background of the specification as in what is taught in U.S. Patent 4,926,375. "formatting the Ethernet Global Data language of the PLC comprises providing, within the XML schema, a reference to an address of a location of a variable within the PLC," among other features distinguish over the prior art of record. In reviewing the prior art of record, only GE makes use of the Ethernet Global Data language. The use of Ethernet Global Data as disclosed in claim 1 is a non-obvious modification over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ajay M. Bhatia whose telephone number is (571)-272-3906. The examiner can normally be reached on M-F 8:30 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jason Cardone can be reached on (571)272-3933. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
